

# E-Waste Collections

*Put your old electronics in the **RIGHT** place*

## **COMPUTER & ELECTRONICS RECYCLING**

**Choctaw Village Shopping Center**

**1421 SE WASHINGTON, IDABEL OK 74745**

**Saturday, January 21, 2012**

**9:00am – 1:00pm**

### **Acceptable Items for Recycling:**

- › Personal Computers
- › Laptops & Notebooks
- › CRT Monitors
- › Flat Screen Monitors
- › Keyboards & Mice
- › Printers & Copiers
- › Toner & Ink Cartridges
- › Fax Machines
- › Peripherals & Gadgets
- › Power Supplies & Chargers
- › Batteries & UPS Systems
- › Cables & Wires
- › Networking Equipment
- › Servers & Racks
- › Hard Drive Wipe **(\$20 fee)**
- › Small Kitchen Appliances
- › Refrigerators
- › Washers/Dryers
- › Other Appliances (all sizes)
- › Multi-Media Equipment
- › Gaming Equipment
- › CD's & Video Tapes
- › Digital Cameras
- › Cell Phones & PDAs
- › Small electronic devices
- › TV's
- › Batteries
- › Auto Batteries
- › Fitness Equipment
- › Medical Equipment

**...anything that runs on batteries or electricity!**

E-Waste (electronic waste) is the most rapidly growing segment of the municipal waste stream. It is produced when electronic products from our homes, schools, and businesses become obsolete or no longer functional and need to be discarded. E-Waste contains many valuable, recoverable resources such as aluminum, copper, gold, silver, plastics and ferrous metals—all of which require considerable energy to process and manufacture. Recycling your old, unwanted electronics conserves natural resources, helps to reduce greenhouse gas emissions and pollution, and saves energy and raw material resources. Recycling also prevents the toxic chemicals found in electronic components (mercury, lead, cadmium, beryllium and chromium from leaching into our soil when landfilled.

*Recycling one million laptops saves the energy equivalent to the electricity used by 3,657 US homes in a year. For every million cell phones we recycle: 35,274 # of copper, 772# of silver, 75# of gold, and 33# of palladium can be recovered.*
